

OFFICERS OF THE STRUCTURAL IRONWORKERS ARE VICTIMS OF GOVERNMENT'S BIG DRAGNET

Thirty Arrests of Labor Leaders Made and More Will be Taken Into Custody Before Evening

MANY DEPUTY MARSHALS BUSY SERVING WARRANTS

Arrests in the Nation-Wide Dynamite Conspiracy Reach From Coast to Coast—Successors to the McNamara Administration are Among Those Taken.

ARRESTS IN ALLEGED DYNAMITE PLOT.
INDIANAPOLIS—Frank M. Ryan, president of International Association of Bridge and Structural Iron Workers, and Herbert S. Hockin, successor of John J. McNamara as secretary-treasurer of the organization.
CINCINNATI—Edward Clark, former business agent of Cincinnati Iron Workers; Ernest Bascy, former business agent Indianapolis Iron Workers. A third man is being shadowed and his arrest is expected today.
SYRACUSE, N. Y.—E. E. Phillips, secretary-treasurer Syracuse Iron Workers; John Carroll, recording secretary Syracuse Iron Workers.
ROCHESTER, N. Y.—C. E. Dowd of Mansfield, O., business agent of Rochester machinists.
CHICAGO—Five arrests made early today, but names withheld until others wanted have been apprehended.
ST. LOUIS—Paul Moran, business agent of the St. Louis Iron Workers; John Barry, former business agent of the St. Louis Iron Workers.
SPRINGFIELD, ILL.—Two men arrested, but names withheld.
MILWAUKEE, WIS.—W. E. Reddin, business agent Milwaukee Iron Workers, and one other man whose name is being kept secret, arrested. A third arrest is expected soon.
SCRANTON, PA.—M. B. Hammon, former business agent of Iron Workers.
INDIANAPOLIS—S. P. Meadows, member of Carpenters' Union.
NEW YORK—Frank C. Webb and Patrick F. Farrell, labor leaders, arrested and taken before United States Commissioner Alexander for arraignment.
PHILADELPHIA—Michael Cunnane, business agent of Philadelphia Iron Workers.

Indianapolis, Ind., Feb. 14.—The long-awaited explosion of the mines laid by the United States government through its grand jury here, to expose and capture the men "higher up" in a nation-wide dynamiting conspiracy, came this morning when the United States marshals in more than a score of cities from coast to coast wired to arrest the labor officials under surveillance. Already 30 arrests have been made out of the 50 or more men indicted by the grand jury and long before nightfall it was expected the men would be behind prison bars.

The first arrest made was that of Frank T. Ryan, president of the International Association of Bridge and Structural Iron Workers' Union. He was arrested in the office of the union, the same place where J. J. McNamara was arrested before being taken to Los Angeles and tried and convicted of dynamiting the Los Angeles Times building.

Other officials of the Iron Workers' International Union were also taken into custody, charged with knowing what the McNamaras did with the money supplied them.

Spurgeon P. Meadows, business agent of the district council of the International Joiners' and Carpenters' Union, was arrested as a representative of one of the three unions implicated in the conspiracy.

Frank C. Webb, who was arrested in the confession of Orville McManis and is charged with meeting and escorting him to a place in Hoboken where a "job" was to be done.

Many of the warrants are charges of transporting explosives from state to state in violation of a federal statute, and concealing knowledge of the commission of such a crime. The indictments charge all the defendants with conspiracy to commit this crime and allege that the McNamara brothers were but the instruments of a vast band of conspirators and that their work of blowing up structures was carried on for years at the behest of superiors and at the solicitation of officials of the local unions.

Eugene Clancy and Peter Smith, labor leaders of the Pacific coast and now under indictment here, are again indicted here.

Bonds for Hawkins and Butler were placed at \$10,000, while the bonds of Meadows and Anderson are \$3,000 each.

Some of those indicted were members of the executive board when J. J. McNamara was directing his dynamiting operations from his office in Indianapolis, and when he was receiving \$1000 a month from the Iron Workers' Union for which he was not required to make any accounting, and which the government charges was used to purchase and pay for the transportation of explosives. These executive board members

were present in McNamara's office when he was arrested last April. The charges in the indictments are divided into two groups. The first group charges violation of the federal statutes regulating the interstate shipment of explosives, aiding and abetting to violate the law and aiding and abetting to conceal the violation.

All of the defendants are charged

SUFFRAGE COMMITTEE OF CONVENTION FAVORS VOTES FOR WOMEN IN BUCKEYEDOM

Columbus, Feb. 14.—The question of women's suffrage as an issue, was put squarely up to the constitutional convention last night by the suffrage committee, which overwhelmingly voted to return a favorable report on the subject for adoption into the new Ohio constitution.

With the names of 16 of the 21 members of the committee appended to the report it will go before the convention today and will be placed on the calendar for debate and adoption. Only Allen M. Marshall of Coshocton voted against it.

If the convention, as a whole, does not see fit to change the wording of the proposal as it now stands, it will be submitted separately, when the entire constitution is voted upon by the people.

If a majority of the voters then

with conspiracy to further a series of public opinion is in our hands and 100 explosions which were directed in the last analysis society is governed by public opinion.

Touching upon woman's work in civic matters, in the home, school and all the works where her activity has manifested itself, she asserted that without the ballot her influence is undivided.

"It is always 100 per cent perfect," she said. "All good women are for the same things and all of them throw the weight of their influence toward the same commendable end. Our eyes are not clouded by personalities in politics and our instincts not blunted by the practices of 'practical politics,' and we accomplish far more without the ballot than we could with its assistance."

"If we are made to vote, good women, like good men, will divide upon unessential points, along partisan lines, and all their force will thus be dissipated against itself, leaving the mass of corrupt women, just as now of corrupt men, to carry the balance of power in any close contest."

Mrs. Gundry, at the conclusion of her address, confessed her inexperience in political matters and her lack of information about how many women voted for Bryan in 1908. This, she declared, was only another reason why women should not be made to vote.

Some of her epigrams were:

"Votes cannot make work or wages where they do not exist."

"Four-fifths of the women do their own housework. They are not entirely free from labor by modern inventions."

"Ninety per cent of the women do not cherish any active wish to vote."

"Women in strife become hard, harsh, unlovable and repulsive."

"We mothers of men are the makers of men, and we require time to make good men. When we have made good men they will make good laws and good government."

"It is one of woman's chief problems how to remain feminine and idealistic in the face of conditions which are already imposed upon us."

FORMER WAITER IN MINING CAMP NOW A GOVERNOR

Phoenix, Ariz., Feb. 14.—George W. Hunt was inaugurated as the first governor of Arizona, today. A few hours earlier word was received by telegraph from Washington that President Taft had signed the proclamation admitting Arizona to statehood. In the ceremonies attendant on the birth of the state the militia was conspicuous by its absence. There was but a meager display of silk hats and frock coats. Accompanied by the newly elected state officers Governor Hunt who began life a quarter of a century ago in a mining camp as a waiter, walked to the executive building. The inaugural address was brief. After the prayer by Rev. Mr. Crutchfield the oath of office was administered. Richard Sloan, Arizona's last territorial governor stood beside his successor. In his inaugural address Governor Hunt promised the new state a "golden rule" administration and pledged anew his fidelity to the constitution. The new governor is a native of Missouri and is not yet 50.

ENTERS RACE EARLY.

Bellefontaine, O., Feb. 14.—Frank J. McColloch of Bellefontaine, has announced his candidacy for the Republican nomination for member of the state board of public works.

But she could not be positive whether she favored an educational or a property qualification, but asserted that the former would be quite "ideal" if it could be obtained, and that such a provision would be totally impossible.

Last night was the last hearing before the committee on the subject, but in spite of this fact there will be a meeting today at the home of Mrs. Hubbard at which a "society" opposed to woman suffrage will be formed as part of a state-wide movement and will proceed to oppose the submission of the clause by the convention as well as its adoption by the people in case it should be submitted to a vote.

Arizona is now a state of the union

Washington, Feb. 14.—As the White House clocks were striking ten President Taft today signed the proclamation admitting Arizona to the union. He used a gold pen which is to be given to Postmaster General Hitchcock.

"There you are," said the President as he signed the last document.

Flood warnings in Muskingum

Zanesville, Feb. 14.—Flood warnings along the Muskingum and Licking rivers have been sent out from here River men say a two days' rain and a general thaw would result in one of the greatest floods ever known in Central Ohio. There are 20 inches of ice on the Muskingum river.

TO VOTE ON AN \$85,000 BOND ISSUE FOR TWO NEW SCHOOL BUILDINGS

Board of Education Asks for Special Election Which Will be Held Saturday, March 9

Modern Ten-Room and Twelve-Room Buildings to be Erected in West and South Newark Respectively Providing Proposition Carries—Board Invites Careful Consideration of Matter by Electors.

The board of education held an adjourned meeting Tuesday evening for the special purpose of considering a resolution praying for the submission of the question of issuing bonds for the erection of a 10-room building in West Newark and a 12-room building in South Newark, which the clerk at the last meeting was directed to prepare for submission to the board.

All the members were present except Dr. Rank, whose presence was prevented by professional business. Other business transacted was the adoption of a resolution providing for the condemnation and appropriations of lots 34 and 35, lying between Grant and Burt avenues, in West Newark, for a school house site. These lots belong to Howard E. Osborn, and the adoption of a resolution directing the city solicitor to prepare and introduce to the city council an ordinance providing for the vacation of an alley running east and west between the Indiana

school house site and the four lots between said site and Indiana street which the board recently purchased. The matter of furnishing the schools with chalybeate or other spring water was referred to a committee, with direction to report at next meeting of the board. On motion, the board granted the request of the City Library trustees for the loan of a table in the high school not in use.

The board then took up for consideration the bond resolution and after discussion as to amount and method of submission, deciding to submit the question of issuing bonds in the sum of \$85,000 to the electors of the school district at an election to be held on Saturday, March 9, 1912, for the erection of a 10-room building in West Newark and a 12-room building in South Newark. As the board views the conditions, there can be no question as to the need of the building in West Newark, since the

GIRL IS FROZEN IN SEA ICE

Attempted to Cross Frozen Bay to Home

FISHERMAN FINDS BODY

She Was Warned of Danger But Desire to Visit Father Over- came Her Fears.

New York, Feb. 14.—A girl of about 19 years, who laughed at the warnings when she started to walk five miles across Jamaica Bay from Canarsie to Barren Island, was found frozen in the ice by a fisherman.

The girl, who wore a great fur boa about her shoulders, a heavy cloth three-quarter coat, and whose head and ears were warmly wrapped in veiling, appeared at Lawrence Messenger's hotel Saturday evening at 6 o'clock and said to him: "How am I going to get over to Barren Island this evening?"

"You can't get over," Messenger replied. "The boat that runs across is frozen in and there's no way."

Her face became very grave at that information.

"I must get there," she said. "My father is there and I must get to him."

"But you can't," broke in Mrs. Messenger, who had joined her husband. "It would be death to try it."

Joseph Triste, a hackman, entered the hotel and the girl said to him, "If you'll drive me across the ice I'll give you \$20."

"Wouldn't try it for two million," replied the hackman.

"I have the money to pay you," she persisted, drawing out a roll of bills.

"Not me," answered the hackman. "I wouldn't make that drive in daylight, much less at night. Better put it off."

The girl said she was determined to go. Messenger, his wife and the hackman accompanied her to the edge of the frozen bay. Already darkness was nearly upon them. They told the girl the direct route was five miles, but some of the bay was not frozen over, and she would have to take a round-about way, which would make the distance six miles.

"It's foolish for you to attempt it," Mrs. Messenger said again, but the girl smiled and started on her journey.

George Carman, a Jamaica Bay fisherman who lives in Canarsie, but has a small hut on Barren Island, was going through the frozen channel across the bay yesterday afternoon on his way to the island when he saw a woman's body on a piece of floating ice. Carman had heard gossip of the daring girl who had started for Barren Island on Saturday night. He guessed she had met with an accident.

One hundred yards from the boat the fisherman saw the girl's body, frozen fast in the ice. Carman sent word to the Canarsie police station and Sergeant Hill and Patrolman Van Hatten went for the body. It was reached with difficulty, and the three men started to carry it to the mainland, three and one-half miles away.

The burden became heavy, so two bobbeds belonging to boys were lashed together. On these the body was taken to Canarsie.

Wrapped in a handkerchief in a pocket was found a roll of eight one-dollar bills. She had a card of Louis Friedman of No. 67 Thadford avenue, Brooklyn. The body was sent to the Brooklyn morgue and Friedman was informed.

"No doubt that's the body of my little maid, Frances," said Mrs. Friedman. "I don't know her last name. She has been with me five months and was a very good, quiet girl. She got some of her pay Saturday afternoon and told me she was going out for a short while. That was the last I saw of her and I suspected something was wrong."

The child has been very homesick. She told me she had a relative on Barren Island—I think she said an uncle. I believe the poor girl became so homesick that she could stand it no longer and just started to see some one of her own flesh and blood, defying danger.

"Frances had been in America only about six months. She had a few friends or acquaintances and I suppose she became frantic with loneliness."

FIVE CHARGED WITH MURDER

Cleveland, Feb. 14.—Five men were arrested here today in connection with the murder of Maurice Kohlman, a striking garment worker, on statements made by J. Mordeky and Isadore Benjamin who were arrested in Cincinnati last week. Fifteen warrants have been issued. Kohlman was beaten to death because he resolved to return to work.

COULD NOT STRAIGHTEN UP

A Peculiar Condition Removed.

Some time ago I was troubled with pains in the back and kidneys, at times could not straighten up after bending over. Came to the conclusion that it was my kidneys. Read Dr. Kilmer's advertisement and made up my mind I would try Swamp Root. During the time taking the contents of two bottles I passed two gall stones of quite good size. Today I am free from pains in the back and kidneys for Dr. Kilmer's Swamp Root removed all the difficulty, and I can now go about my work and have no trouble with my back or kidneys. I will gladly recommend Dr. Kilmer's Swamp Root to any one suffering from kidney or liver trouble. You are at liberty to publish this if you so desire.

BOARD OF EDUCATION

eight grade children now have to come to the Central building and a third grade accommodated in a store room which the state inspector has ordered to be abandoned immediately, and a first grade has been divided into two sections, with half day sessions for each.

The old Maholm street school was abandoned years ago, then repurchased later by the board to bridge over an emergency; it now houses four schools, although the building was originally intended for only two rooms. The building is too small for four schools and is heated with stoves and with no ventilation except through windows.

The buildings in South Newark presented a more difficult problem to the board; they are both heated with stoves and badly ventilated, with no indoor accommodations for toilets. Along in the seventies a four room addition was built to the first street building, which was then a building with two large rooms. Any one inspecting the building will at once see that it was a bad job and that the old building should have

been torn down and an entirely new one erected in its place. The board first considered the feasibility of remodeling these two buildings, but after computing the cost, it decided that taking into consideration the future as well as the present of Newark, the most satisfactory and economical plan is to erect a new building to take the place of the two old ones. It would take from \$14,000 to \$16,000 to remodel the Fifth street school, including furnace heating, proper ventilation and closet conveniences. The old building in the rear of the newer part would have to be torn away, a new four room addition erected in its place and a basement excavated for the whole, and after all was done it would not be an up-to-date building such as the other parts of the city have.

As to the Third street building it would cost about \$5,000 to remodel the same and bring it up to date as nearly as possible in the matter of heating, ventilating and closet conveniences.

It will probably be asked what is to be done with the old buildings? If they can not be sold at a price which justifies their sale, would it not be eminently proper to keep these properties for playgrounds for the children and possibly use the buildings for social centers? The board invites a careful consideration of the question by the electors, and, taking all things into consideration, it believes that the voters will agree with it in its conclusions.

New Coaches Being Bought.

During the month of February car builders expect business amounting to at least \$20,000,000. Steel passenger coaches are expected to figure very largely in the business of the year, the Pennsylvania and Illinois Central lines now asking for bids on 350 more steel coaches at an approximate cost of \$4,500,000.

241 TEAMS ENTERED.

Chicago, Feb. 14.—Secretary Langtry of the American Bowling Congress, last night said that 241 eleven teams have entered the national tournament which will open here March 2. Entries close Feb. 16. Langtry predicted that the total entry list would reach 650 teams from all parts of the country.

BASEBALL IN BRIEF.

The purchase of Second Baseman Flick from Detroit has been announced by Manager Billy Smith of Chattanooga. Last season with Boise City, in the Union Association, he hit .272 and fielded .936. Jack O'Connor, former manager of the Browns, will probably be manager of the Columbian League team in St. Louis. Charlie O'Brien, 25, for five years a professional baseball pitcher and working in the Cotton States and Southern Michigan Leagues, is dead at East Liverpool, after a long illness.

GYG FINDS FRIEND.

Frank Gygil, who has been spending the winter in Newark, was at the basketball game last night and found an old friend and fellow ball player in the person of Faust, who played left guard for the Buffalo Germans. Gygil introduced himself and the two had a pleasant chat between halves.

JACK PENDRY MAY MANAGE ZANESVILLE

South Bend, Ind., Feb. 14.—President P. Carson has announced the Central League list of managers as follows: South Bend, Harry Arndt; Erie, W. O. Gilbert; Akron, Lee Fohl; Springfield, Charles O'Day; Youngstown, Bill Phillips; Canton, Ed. Greninger; Wheeling, Goat Anderson; Terre Haute, Aggie Grant; Grand Rapids, Ed Smith; Ft. Wayne, Shag Shanughnessy; Dayton, Punch Knoll. For Zanesville Hugo Swartling or Jack Pendry will be chosen manager next Monday night.

COLUMBIAN LEAGUE GETS HEAVY BLOW

Detroit, Mich., Feb. 14.—The new Columbian Baseball League, organized at St. Louis Monday, is likely to get a body blow from Detroit. John Roesink, who applied for and received a franchise for Detroit, will probably throw it up in order to book exhibition games with National League teams for Sundays when the Tigers are abroad. Roesink tried to do this last year, but President Navin upheld his rights under the national agreement and forbade it.

It is understood that this year he has decided to permit games that do not conflict with the Detroit team. President Ebbeitz of Brooklyn already has signified his willingness to have his team stop over here en route east or west or come over from Pittsburgh some Sunday when playing a series there.

The first jaunting car was established in Ireland in 1815 by a Milanese.

Increased Maintenance Charges.

In the past 18 months the B. & O. has spent \$50,000,000 of new capital on equipment, new line and betterments. It has plenty to show for it in the way of new business. The most remarkable fact, however, is that in a time when other roads are cutting into their maintenance accounts for the sake of keeping up net earnings, the B. & O. actually increased its maintenance charges, but at the same time increased its net earnings very greatly by cutting down other operating expenses.

In December gross earnings increased \$346,000, and notwithstanding an increase of \$118,708 in maintenance charges, net earnings increased \$558,700. The result was largely due to a reduction in transportation expenses of \$32,327.

At the present rate of business the B. & O. is doing \$39,000,000 gross a year, and the savings in expenses alone, if continued at the present rate, will be enough to meet two-thirds of the common dividend.

The Dispatcher.

Do you ever stop to think while riding on a railway or electric line that the dispatcher at the division headquarters practically holds your life in his hand? He must know just where every car is and give out all orders for the passing of the various trains or cars. One false order and perhaps many would be dashed into eternity without a minute's warning. Truly his job is no light one.

FOR THE CHILDREN

To Keep Their Digestion Perfect Nothing is So Safe and Pleasant as Stuart's Dyspepsia Tablets.

Trial Package Sent Free.

Thousands of men and women have found Stuart's Dyspepsia Tablets the safest and most reliable preparation for any form of indigestion or stomach trouble.

Thousands of people who are not sick, but who are well and wish to

keep well take Stuart's Tablets after every meal to insure perfect digestion and avoid trouble.

But it is not generally known that the tablets are just as good and wholesome for little folks as for their elders.

Little children who are pale, thin and have no appetite, or do not grow or thrive, should use the tablets after eating and will derive great benefit from them.

Mrs. G. H. Crottsley, 538 Washington St., Hoboken, N. J., writes: "Stuart's Dyspepsia Tablets just full for the bill for children as well as for older folks. I've had the best of luck with them. My three year old girl takes them as readily as candy. I have only to say 'tablets' and she drops everything else and runs for them."

A Buffalo mother, a short time ago, who despaired of the life of her babe, was so delighted with the results from these tablets that she went before the notary public of Erie Co., N. Y., and made the following affidavit:

Gentlemen:—Stuart's Dyspepsia Tablets were recommended to me for my two months old baby, which was sick and puny and the doctors said was suffering from indigestion. I took the child to the hospital, but there found no relief. A friend mentioned the Stuart Tablets and I procured a box from my druggist and used only the large sweet lozenges in the box and was delighted to find they were just the thing for my baby. I feel justified in saying that Stuart's Dyspepsia Tablets saved my child's life.

MRS. W. T. DETHLOPE. Subscribed and sworn to before me this 12th day of April, 1897.

HENRY MARIS, Notary Public in and for Erie Co., N. Y.

For babies, no matter how young or delicate, the tablets will accomplish wonders in increasing flesh, appetite and growth. Use only the large sweet tablets in every box. Full sized boxes are sold by all druggists for 50 cents and no parent should neglect the use of this safe remedy for all stomach and bowel troubles if the child is ailing in any way regarding its food or assimilation.

GUS RUHLIN IS DEAD; FORMER HEAVY WEIGHT

New York, Feb. 14.—Gus Ruhlin, the former heavyweight boxer, dropped dead at his home, 1490 Myrtle avenue, Brooklyn, last night at 7 o'clock. Death was caused by convulsions, which attacked him shortly after he entered upon his evening repast. Before leaving his cafe, which of late he has been conducting, for his apartments above, Ruhlin appeared to be in the best of health. He celebrated his 40th birthday anniversary three weeks ago.

Ruhlin at one time promised to become heavyweight champion of the world. He was born at Canton, O., Jan. 8, 1872 and became known as the Akron Giant. His first fight was with Jim Wood at Akron, Ohio, in 1896, which he won on points. That year he won three and lost one bout. The following year he fought Jim Jeffries a 20-round draw. At that time Jeffries was just coming into prominence as a boxer. On May 20, 1898, Ruhlin was defeated by Kid McCoy in 20 rounds at Syracuse. That same year he was knocked out by Tom Sharkey in one round at Coney Island.

His defeat at the hands of Sharkey sent him on the downward path. The succeeding year Peter Dinkster held him even in a 20-round contest and a year later he was again knocked out by Sharkey and also by Bob Fitzsimmons. He lost to Jeffries again in 1901 at San Francisco in five rounds. In 1902 Ruhlin went to England, where he fought several of Great Britain's best heavyweights. He was successful in his trip until he tackled Tom Sharkey for the third time and was again knocked out.

He wound up his career in 1905 by knocking out Jimmie McCormick in 18 rounds at Colma, Cal. Ruhlin settled down after his victory over McCormick and married. Mrs. Ruhlin is a leading light in the suffragette world and several months ago started society by conducting a prize fight for the benefit of women only, the first time in years that they were permitted to witness boxing contests in this state.

HICKS GAME TO FINISH IN BOUT WITH GIBBONS

Freddie Hicks showed his gameness in a bout in New York last night, when he took a terrible punishment from Mike Gibbons. Although outpointed all the way, Hicks gamely stayed with Gibbons until the bell saved him from further punishment. Gibbons made a determined effort to score a knockout after the fifth round, but Hicks prevented this. The following special from New York tells of the battle:

New York, Feb. 14.—Mike Gibbons, the St. Paul whirlwind, dispelled all doubts as to his superiority over Freddie Hicks, the Detroit boxer, by beating his foe in every round of the 10 engaged in at the Fairmount A. C. last night. Hicks suffered a hard trouncing without causing Gibbons any worryment once during the fight. Gibbons, weary from pounding Hicks after the fifth round, and thereafter he stalked his chances of ending the battle by a knockout on one chance wallop, but failed to down Hicks, who feebly tottered about the ring, only to be saved by the bell.

Hicks is well known in Newark, having appeared here in several bouts in 1909 and in the winter of 1910 before the Newark Athletic Club. He has many friends in Newark who are pleased with his showing against Gibbons, knowing the St. Paul man's ability in the ring.

HOW HE CURED HIS CATARRH

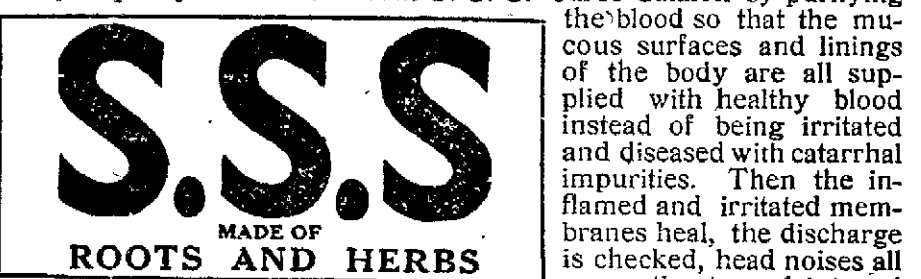

I had all the symptoms which accompany Catarrh, such as mucous dropping back into the throat, a constant desire to "hawk and spit," feeling of dryness in the throat, scabs forming in the nose, sometimes causing it to bleed and leaving me with a headache. I had thus suffered for five years, all the time trying different local treatments of inhalations, snuffs, douches, etc., with no real good effect. Of course I was greatly discouraged. As soon as I heard of S. S. S. I commenced its use as you advised and after using it a short while noticed a change for the better. I continued to take it believing the trouble was in the blood, and S. S. S. finally made a permanent cure for me.

JUDSON A. BELLAM, 224 Randolph St., Richmond, Va.

The symptoms Mr. Bellam describes in his case of Catarrh are familiar to everyone who suffers with this disease. For five years he had endured discomfort and suffering and was greatly discouraged as one treatment after another failed to cure him. When at last he realized that Catarrh is a blood disease, he knew that the former treatments had been wrong, and only a blood purifier like S. S. S. could produce permanent good results.

Catarrh comes from impurities accumulating in the circulation, and as the blood goes to every portion of the body the catarrhal matter irritates and inflames the different mucous surfaces and tissues causing an unhealthy and inflammatory discharge, and producing the other well known symptoms of the trouble.

S. S. S. cures Catarrh by cleansing the blood of all impure catarrhal matter, and at the same time building up the system by its unequalled tonic effects. It goes down into the circulation and removes every impurity. In other words S. S. S. cures Catarrh by purifying the blood so that the mucous surfaces and linings of the body are all supplied with healthy blood instead of being irritated and diseased with catarrhal impurities. Then the inflamed and irritated membranes heal, the discharge is checked, head noises all cease, the stomach is toned up, throat is no longer clogged with phlegm, but every annoying symptom is corrected. A special book on Catarrh and medical advice free to all who write.

COLUMBUS HAS GOOD BOXING PROGRAM READY

Columbus, Feb. 14.—The card has been made up for the boxing show which the Hornet Athletic club of this city will put on at the Chamber of Commerce Auditorium next Tuesday evening, February 20.

The main bout will be a ten round go between Sammy Trott, the Columbus favorite, and Young Shaylor of Indianapolis, who holds decisions over such lightweights as Battling Nelson, and has met the top notch boys of the class such as Joe Mandot, Willie Ritchie, Grover Hayes, Matty Bellwin, and a score of others. This will not be the first meeting between Trott and Shaylor. They met in a sensational ten round bout at New Orleans in the early fall and honors were so even between them that each has since been demanding a return match.</

BILIOUSNESS, SALLOW SKIN, HEADACHE, SLUGGISH BOWELS---TAKE CASCARETS

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow with dark rings under your eyes, your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics, that irritate and injure. Remember, that every disorder of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets a 10-cent box will keep you and the entire family feeling good for months. Don't forget the children--their little insides need a good, gentle cleansing occasionally. Children love to take Cascarets, because they taste good and never gripe or sicken.

GREAT TEAM WORK OF GERMANS DEFEATED REINBOLD'S PLAYERS

The Buffalo Germans, champions basketball players of the world, easily defeated the right to the title last night in a game with the local Y. M. C. A. team, the visitors winning by a score of 47 to 30.

The game was played before what is believed to be the largest crowd that ever witnessed a basketball game in Newark. At least the attendance was the largest in recent years. Hickey Hall was literally packed.

The dressing rooms were torn out to provide more standing room and every available nook and crevice was occupied. It is estimated that there were from 350 to 400 people in the room.

The Germans were on hand promptly and after a few minutes' practice the game was called and the excitement started.

For a few brief moments the Y. M. C. A. team took the lead, but it was not long until the visitors became familiar with the floor, and their splendid team and floor work enabled them to seemingly score at will.

"Monk" Lucas, the midjet of the Newark team, was easily the star offensive player in last night's game. He tossed the first basket within a very few seconds after the play was started. He kept up the good work throughout the contest and scored 14 of his team's 30 points.

Reinbold was strong on the defensive work and Woodward and Edwards each got into the game more than usual. The disappointment of the game was the fact that Livingston did not play up to his usual form. In past games Livy has been the mainstay of the scoring machine, but last night he was unable to hit his stride until late in the second half, when he tossed three field goals.

For the Germans, Herdt was the best point scorer. His combined 17 of his team's 47 points. H. Miller and Linneborn were also strong on offensive work. Faust, left guard, was the only visitor who failed to score a point.

Considering the reputation of the Germans and the experience of the players, coupled with the fact that they have been playing years together, the "Y" team made a creditable showing in the game. Reinbold's men ran up a larger score than the average suffered by the Germans on this trip through Ohio.

In analyzing the work of the Newark boys, they showed but little improvement over the work in former games, which was in a way, disappointing to the fans. The failure of Livingston to produce his usual quota of points was partly responsible for the difference in the score.

However, the two teams furnished an excellent hour's entertainment for the 300 or 400 spectators, all of whom were well pleased with the exhibition.

Newark 30. Germans 47. Livingston 17. Lucas 14, Miller 17, Edwards 6, G. 6, E. Miller 4, Reinbold 6, L. G. 6, Faust 1, Woodward 1, R. G. 1, Linneborn 1.

The summary: Field goals--Livingston 3, Lucas 4, Woodward 3, Edwards, Reinbold; H. Miller 6, Herdt 6, E. Miller 4, Linneborn 5.

Penalty goals--Lucas 6, Herdt 5. Referee and umpire--Moore of Denison, Rhode of Buffalo (alternating). Timer--Eisengreen.

EVEN THE MOST STUBBORN COLD EASILY BROKEN

There is not one grain of quinine in Pape's Cold Compound, which, when taken every two hours, until three consecutive doses are taken, will surely end the grip and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, catarrhal affections, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

BURNED HER BABY IN STOVE

Halifax, N. S., Feb. 14.--Mrs. Ada McCarren put her 5-weeks-old baby in the stove and burned it to death, according to a confession which the police say she made when arrested on suspicion that she could account for the disappearance of her child, which had been missing for nine days.

Small bones found in the ash barrel in the house led to the arrest of the woman, who had previously explained the child's disappearance by saying that it had been kidnapped. The police believe she is mentally deranged.

AMUSEMENTS

Press Agent Says:

Auditorium Pictures.

An interesting program of motion pictures will be shown at the Auditorium theatre tonight. "The Easterner's Sacrifice," Lubin, a western drama. "The Playwright," Essanay. "The Sheriff's Friend," Vitagraph; a western drama. "Honoring a Hero," Pathe; a war drama. "Two White Roses," Edison; a comedy.

Polly of the Circus.

The mystic world of red wagons, peanuts, saw dust and the big cat of a circus will be seen in Frederic Thompson's production of "Polly of the Circus," which will be seen at the Auditorium Thursday evening. While the play carries with it the atmosphere of the sawdust ring and its accessories, which is usually prosaic and far from being romantic or sentimental, there has been woven into it by its author, Margaret Mayo, a touching romance of love, which is forcibly and capably brought out.

There is an ideal heroine for a love affair, Polly, the pet of the circus and afterward the bride of a minister in a graceful, artistic manner. Polly is not the noisy, uncouth "circus lady," but is the portrayal of a refined and gentle young woman, who, "shy" on education but rich in principle, is injured through a fall from her horse and becomes at the termination of a pretty little love affair, instead of a bareback rider, a helpmate for the parson, whose sympathy leads her into a parsonage and thence to a life which is spiritually sweet and happy. Mr. Thompson has provided an exceptionally strong cast of capable artists, headed by Miss Georgie Old. This is the exact production that has played New York and all the large cities.

Lederer Banishes False Hair. George W. Lederer, who introduced the revue and who revolutionized musical comedy on the American stage, who invented the show girl and discovered Edna May, has become even more revolutionary this year by abolishing not only the show girl but also the chorus man and the traditional chorus girl as well in "Jumping Jupiter" and "Madame Sherry," both of which are Frazee & Lederer productions, the feminine background is supplied by a dozen carefully chosen young women who can act as well as sing and dance, and to them are entrusted as minor roles.

In "Jumping Jupiter," Lederer has gone even further by abolishing and abandoning false hair, so that the celebrated collection of "Some Girls"

who support Richard Carle, appear on the stage with only their own hair, and minus all puffs, rats, curls, switches, ribbons and bandeaux. A wail of anguish went up from the young women when the managerial dictum was promulgated, but the result showed such improvement in appearance that they finally accepted the banishment of their false tresses cheerfully. At the Auditorium theatre soon.

The Orpheum.

The bill for the last three days of the week promises to be up to the usual standard of the Arcade theatre bills of the past few weeks. The program will be headed by the "Three Daisies in 'A Trip Around the World.'" This is said to be a real live comedy sketch, set to a special scenery and the only one of its kind in vaudeville. Misses Bland and Clayton in a singing and talking act, "Just a Little Sarcasm," are said to be clever entertainers. Joe Austin, a clever Italian impersonator, is also coming. He is a play-tag artist whose work is winning him much praise. Harry Bardell, the juggling genius, will give a marvelous and unique novelty act. There will be a new licensed picture.

ELKS REHEARSE WITH ORCHESTRA LAST EVENING

The big cast for the Elks' minstrel show is now putting on the finishing touches which will go to make the show a real event of the dramatic season.

When the curtain rises Monday night it will reveal to the audience a collection of stars of minstrelsy such

WILL DOWNEY.

as Newark has not had an opportunity of seeing. Among the features will be a solo by M. Will Downey, and his many friends in the city are anticipating a real musical treat when Mr. Downey takes the spotlight. Not only has the management been fortunate in securing soloists of ability, but the chorus is made up of the finest voices in the city. In the

E. LLOYD HILL.

chorus will be found Mr. E. Lloyd Hill, whose ability as a vocalist is more than well known in Newark. On Tuesday evening the cast of the show held a rehearsal with the full orchestra, and the songs, specialties and features were run off with a dash and finish that assures a production in which not a lagging moment will be found. At this rehearsal the end men opened up in fine style, and their work next Monday evening is bound to carry the audience in a gale of merriment.

The seats for the production will be placed on sale Friday morning at 9 o'clock, and a rule has been established that not more than six seats will be sold to any one person.

NERVES

ALWAYS TIRED, WITH LITTLE VITALITY

Modern Tonic, Tona Vita, Will Surely Build You Up Again

Are you one of the run-down, half sick, nervous people with which the country is filled? Do you feel tired all the time with very little vitality? Do you sleep badly and feel as worn out in the morning as when you went to bed? Is your circulation poor and do you catch cold easily? Have you stomach trouble and an irregular appetite? Are you nervous, moody and depressed?

These are sure symptoms of nervous debility. If you are struggling along in this miserable condition the best thing you can possibly do for yourself is to take "Tona Vita," the wonderful new tonic that has the unqualified endorsement of more physicians than any other medicine ever before offered to the public.

Here is what Rev. Gustave Frederick, pastor of the Evangelistic

church, Center Street, Milwaukee, Wis., has to say of it: "Judging from my own experience I do not hesitate to say that 'Tona Vita' is an extremely valuable preparation. I have not only used it myself, but all other members of my family have been taking it with highly satisfactory results."

"So far as my own case is concerned I have been in a run-down condition for a year or so, trying easily and being troubled with sleeplessness. I lacked vitality and caught cold readily, and my digestion and appetite were poor. I was depressed in mind and body and very nervous."

"I now feel stronger than for a long time. I have more energy and my work is done with much less effort. I sleep and eat better and feel as though rejuvenated."

Tona Vita acts quickly. You will be surprised how rapidly it will build you up. R. P. Collins, 27 North Third street has the agency for Tona Vita in Newark, Ohio, and will return the purchase price if not entirely satisfactory. The Approved Formula Co., Dayton, O.

MORE PROGRESS.

Great progress has been made in the
department of the state inspector of
workshops and factories during the ad-
ministration of Thomas P. Kearns.
New laws have strengthened the hands
of the inspector and his subordinates
and new policies have raised the
standard of efficiency.

When Mr. Kearns assumed his
duties, there had been created the
previous year the office of Assistant
Chief Inspector, whose duty it was to
examine the plans and specifications of
all public buildings to be erected in
the future throughout the state.

It was therefore necessary for him
to have some rules and requirements
by which he was to be governed in
the examination of those plans, and
by which the owners and builders were
to be governed in the erection of these
buildings.

A code has been prepared governing
the erection of school buildings only.
Kearns found it necessary to take im-
mediate action to provide some code
of requirements for other classes of
buildings, as well as heating and
ventilating requirements for the in-
stallation of heating systems, and he
set about drafting these rules. A
heating and ventilating bulletin was
compiled, together with a bulletin gov-
erning the essential features of the
construction and arrangement of the-
atres and picture shows. It was mailed
out to the different architects through-
out the state as a guide in designing
these buildings. The heating and ven-
tilating requirements were drafted in
such a way that they could be made

applicable to a certain extent to all
classes of buildings, and had to be
followed. The result was a new state
building code covering all factories and
public buildings.

The small leaks constitute the big-
gest drain on any large business en-
terprise. The large leaks are usually
stopped, for they, naturally, would be
first attended to. The state Demo-
cratic administration has been able to
render a public service unparalleled in
the history of the state, for the reason
that they have not only devoted their
attention to all the big details of the
business, but have been careful to see
that none of the minor functions of
the different departments is neglect-
ed. Many small leaks in public busi-
ness institutions, so large as are the
state departments would cause an enor-
mous loss in the course of a year.

Secretary of State Charles H. Graves
is one of the Democratic state officers
who is making an excellent record by
applying the ordinary rules of private
business enterprises to his public
business—and that means that he is
not neglecting any of the details in
his office. It is the duty of the sec-
retary of state to collect a fee of \$2.00
for each commission granted a justice
of the peace, and a \$5.00 fee for each
commission granted each state and
county officer. Before the Graves ad-
ministration there was neither a sys-
tematic nor a faithful performance of
the duties imposed by the statute
levying these fees. Many commissions
were issued for which no payments
were made. That was a small leak,
but Secretary of State Graves stopped
it. As a result, he has increased the
revenue of the state from this source
in one year 250 per cent. In 1910 Sec-
retary of State Thompson collected in
commission fees \$2,626, while in 1911
Mr. Graves collected \$6,768.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the
Hair, Cures Dandruff, Stops
Falling Hair.

What a pity it is to see so many
people with thin, wispy hair, faded or
streaked with gray, and realize that
most of these people might have soft,
glossy, abundant hair of beautiful
color and lustre if they would but
use the proper treatment. There is
no necessity for gray hair under
sixty-five years of age, and there is
no excuse for anyone, young or old,
having thin, straggling hair, either
full of dandruff or heavy and rank
smelling with excessive oil.

You can bring back the natural
color of your hair in a few days and
forever rid yourself of any dandruff
and loose hairs, and make your hair
grow strong and beautiful by using
Wyeth's Sage and Sulphur Hair Rem-
edy. For generations common gar-
den Sage has been used for restoring
and preserving the color of the hair;
and Sulphur is recognized by Scalp
Specialists as being excellent for the
treatment of hair and scalp troubles.

If you are troubled with dandruff
or itching scalp, or if your hair is
losing its color or coming out, get a
fifty cent bottle of Wyeth's Sage and
Sulphur from your druggist, and notice
the improvement in the appear-
ance of your hair after a few days'
treatment. Frank D. Hall, 10 North

IMPROVEMENTS MADE AT CROTON

In a number of the towns in Licking
county the people are getting the im-
provement idea in their systems and
are planning for extensive improve-
ments. Up in Croton during the past
year a new sewer system has been es-
tablished and other improvements
made. The public square has been
paved with brick and a number of the
principal streets are to be macadam-
ized with concrete curb and gutters. At
a recent meeting of the village council
of that place H. L. Maddocks, consult-
ing engineer of this city, was em-
ployed as engineer to get out plans
and specifications for additional street
improvements to be made during the
coming season.

NEW YORK CUTS SMALL FIGURE

Empire State Has Lost Power
In Democratic Conventions.

IS KERN BRYAN'S CANDIDATE?

House Majority Rides Over the Peer-
less Once More—Morris Brown Will
Spend His Money—The Senatorial
Burying Ground—Pomerene and Mar-
tine Spring Some Old Ones.

By ARTHUR W. DUNN.
Washington, Feb. 14.—[Special.]—
New York is always a nonentity in
Democratic national conventions. It
is never for anybody and doesn't even
present an acceptable candidate for
vice president. New York cuts no fig-
ure in the present consideration of a
candidate. The state is to be tied up
and delivered when the time comes,
for whom no one can say, but presum-
ably for some man who cannot be
nominated.

New York Democrats were lament-
ing about this situation, and Congress-
man Fitzgerald made it more apparent
by adding a little ridicule to the situ-
ation by proposing a presidential tick-
et in which New York figures.

Strange as it may seem, there are
people who think that when the final
test comes the Bryan strength in the
Democratic convention is to be turned
over to Kern. O'Gorman in second
place. It is said, would win back the
Catholic vote, which has strayed from
the Democratic fold.

"Ozone of Democracy."
That is the ozone of Democracy,"
remarked Congressman Garrett of
Tennessee, commenting upon the
wordy contest in the Democratic con-
vention. It was the caucus, by the way,
which turned down Bryan's sugges-
tion as to how the money trust should
be investigated; and, looking back
over the procedure of the Democratic
house, it must be noted that many
times his advice has not been heeded
by that party. And that makes us in-
quire whether he will dominate the
national convention, as so often pre-
dicted.

"Where Were You Interred?"
It is doubtful if Senator Smoot ever
hears the last of his attempt to bury
certain very much alive and active
members of the senate. As chairman
of the joint committee on printing he
sent to secretaries of state an inquiry
for information about the various sen-
ators who have represented the com-
monwealth.

This inquiry embraced the ifing as
well as the dead, but unfortunately a
clerk neglected to strike out the ques-
tion, "Where is he interred?" in the
case of the former.

In the cloakroom several of the vic-
tims, all Democrats, were rallying each
other.

"Where are you interred?" asked the
senator from Arkansas of the senator
from Georgia.

"In the committee on private land
claims," answered Senator Bacon, that
being the committee of which he is
chairman.

"And I," said Senator Clarke reful-
ly, "in the committee on the disposi-
tion of useless papers in the executive
departments."

"Never mind," said Senator Tillman
with a flash of his old time vigor.
"Look out for us after next November,
when we shall all cast off our shrouds."

Senatorial Daffodils.
Said Senator Alton Pomerene of
Ohio, "If a burglar got into the cel-
lar would he steal the coal cante?"

Replied Senator John Martine of
New Jersey, "No, but the kindling
wood."

Brown Discovers Hard Lines.
"There is little incentive these days
for a man to try to lay aside for a
rainy day," said Senator Brown, fre-
quently President Taft's recent mes-
sage concerning antimonopoly.

"The Bible says, 'Put not your trust
in riches,' and the president says, 'Put
not your riches in trusts.' I guess I'll
have to do as I have always done and
spend mine as I get it."

Underwood's Logic.
Congressman Underwood says he
can't stop to explain all the intricate
things contained in a tariff measure
before pushing it to a vote.

"It may sound contradictory and con-
fusing, but study will show that it is
not so. For instance, it is supposed
that men have a great advantage over
animals. But suppose a horse runs
away with a man. The man is likely to
be laid up for six or eight weeks. Sup-
pose a man runs away with a horse.
Then the man is likely to be laid
up for six or eight weeks. You see, it
requires study to understand these de-
tails."

A Temperance Judge.
A man was discussing the qualifica-
tions of a western judge with Senator
Bailey. "I would rather be tried for
murder before him than for bootleg-
ging," remarked the Texas senator.

Which meant that the judge was an
earnest supporter of the crusade
against the sale of liquor.

Thornville.

Mrs. George Taverner delightfully
entertained a number of her lady
friends at dinner on Friday in honor
of Mrs. Eskew of Covington, Ky.

Messrs. Austin Irwin, Bert Blade,
and Allen McFarlin will give a dance
at the hall on February 22.

Messrs. Joseph Brownfield and the
Vogelmeier Brothers have purchased
the hotel, and will use it for the
lodgement of the men who are build-
ing the new pike between Newark and
Perry county.

Traveling Telephone.
The traveling telephone system on
the Lehigh Valley railroad is proving
a success. A portable telephone ap-
paratus is carried on every train,
passenger and freight, and in case
of accident the crew can get into im-
mediate communication with the dis-
patcher's office. The trainmen have
to make the connection by running
an extension pole to the telephone
wire. The system has made the
handling of both passenger and
freight traffic more rapid.

While the month of January showed
a marked improvement in the
automatic telephone service, the
first two weeks of February were
very gratifying to the local telephone
company. There was not a single
telephone in trouble at the end of
the day's work any night during the
past week, and the plant has been
operating like clockwork for a month
past. The management appreciates
the fact that there was trouble with
the service during the first few
months of operation, due to the lack
of trunking facilities needed to han-
dle the tremendous traffic turned
over to it by the telephone-using
public of Newark, but they now feel
more than satisfied with the re-
sults which have been obtained.

Few people even now realize with
what the telephone company had to
contend during this time, as the traf-
fic tests made in November have never
been made public, but the results
when tabulated were found to be
far greater than were expected. The
smallest number of calls in any one
day during this test was on Thurs-
day, Nov. 16, showing 22,651, while
the largest was a week from that
date, when the meters showed 40-
515, or nearly twice as many, and
the number of calls for each
day was 23,440.

The automatic telephone plant is
divided into units, each unit contain-
ing 100 lines. The smallest average
for this 10 day test for any unit
was 13.8 calls per day, while the
largest average was 30.9, the total
average for the entire system being
19.3 calls per line a day, including
two Sundays. When one considers
the fact that the usual number of
calls per day for a telephone plant
this size is about 8, then it can read-
ily be seen what tremendous odds
the telephone company has been
obliged to fight against. Today the
management has no hesitancy in rec-
ommending its new automatic ser-
vice to the people of Newark and
can assure all present and prospec-
tive subscribers that it will be
found to be unsurpassed in any tel-
ephone plant in the world. The au-
tomatic telephone gives you more
and better service than any system
made—its features are instantaneous
connections, secrecy, speed, accu-
racy and absolute control of the
telephone by each subscriber. You
are not at the mercy of the operator
and can call whom you please at
any time you please. The automatic
telephone works just as well at night
as in the day—it never sleeps.

The Newark Telephone Company is
strictly a Newark organization—it
is owned and operated by citizens of
Newark. It has nearly 4000 tele-
phones on its lines, spread of a ter-
ritory comprising 12 townships from
Muskingum county to Alexandria,
and all the way to the Ohio river.

The company proposes to start the
compiling of a new telephone direc-
tory about April 1 and all contracts
which are in before that time will
be included in this new list. Appli-
cations for change of service, moves,
etc., should also be made within the
next few weeks to be in time to be
listed.

COMMUNICATED

OLD POLITICAL HISTORY.

By I. N. MILBURN.

Soon after the Revolutionary War
two political parties sprang up, one
Federalists, the other Anti-Federal-
ists. Alexander Hamilton seemed to
be the leader of the former and Tho-
mas Jefferson the leader of the lat-
ter. In 1791, when the two parties
were fairly formed and openly pitted
against each other, an element of
discord entered into politics, which
aroused a bitterness of class feeling
to the usual animosity of contention.
Society in the Middle and Southern
States had been composed of a few
wealthy and influential families, and
of a much more numerous lower
class, who for awhile followed the
lead of the great men. These lesser
citizens had now determined to set
up for themselves, and had enlisted
in the ranks of the Anti-Federalists,
who soon assumed the name and
style of Democrats, an epithet first
bestowed upon them in derision, but
joyfully adopted, making one of the
happiest hits in political history. In
that word lay victory. I have often
thought there was too much antag-
onism between parties at this time,
but it cannot be compared to the ill
feeling between the two parties at
the time we are writing about. The
name of Democrat seemed to be a
terrible name to the Federalists.

"The name Democrat," writes an old
gentleman to his son, "is despised;
it is synonymous with infamy." But
the real issue with the parties,
which underlaid all their proposed
measures and professed principles,
was the old struggle of the classes
against the common masses (about
the same today). The Democrats
contended for perfect equality, polit-
ical and social, and as little power
as possible in the central govern-
ment. The Federalists, who at that
time held the reins, and up till
1801, were for a strong, conservative
government and a wholesome dis-
tinction of classes. The two parties
were not long in waiting for flags to
rally around and fresh fields on
which to fight. The Jefferson party
accused the Federal party with try-
ing to establish a monarchy. They
claimed the charge was unfounded,
but when Jefferson was elected pres-
ident in 1800 their bitterness knew
no bounds. Their fault-finding did
lead some color to the accusation.

It is curious to read what the Fed-
eralists' papers, in the first days of
their sorrow, said at the time Jef-
ferson took his seat as president. Here
are some of their wallings:

"What is the use of celebrating
the Fourth of July? Freedom is a
stale, narcotic topic. The Declara-
tion of Independence a useless, if not
an odious libel upon friendly nations
connected with us by the silken
band of amity." One Fenio, in his
paper, said the Declaration was a
placard of rebellion, a feeble produc-
tion, in which the spirit of rebel-
lion prevailed over the love of the
country. On Demie, in his Portfolio,
called it "an inherent accumulation
of indigestible and impracticable
political dogmas, dangerous to the
peace of the world and seditious in
its local tendency." A democracy,
they said, is the most absurd consti-
tution, productive of anarchy and
mischievous. All the miseries of man
for a long series of years grew out
of the principle and mode of polity a
democracy; which is reckoned to be
only the corruption and degeneracy
of a republic, and not to be ranked
among the legitimate forms of gov-
ernment. If it is not legitimate, we
owe it no allegiance. He is a blind
man who does not see this truth;
he is a base man who will not assert
it. Democratic power is tyranny in
the principle and the end. It is on
trial here and the issue will be civil
war, desolation and anarchy."

These and other foolish writings
were kept before their readers by the
"Aurora" and "Boston Chronicle,"
leading Federal organs, and served
to sweeten the triumph and to seal
the fate of the unlucky Federalists.
As that conquering Democracy
marched onward the opposition was
forced to follow after and to give up
upon the ground their powerful ene-
my left behind them. Today when
we see men who consider them-
selves conservatives in the ranks of
the Democrats, we may suppose that
the tour of the political circle is
nearly completed.

SOCIETY

The concert given by the Select Entertainers Monday evening was enjoyed by all. The next number given by the Victorian Serenaders, March 13, promises to be still better.

The school board has at last succeeded in getting a satisfactory heating system installed in the school building. When the mercury stood ten below zero the average temperature in the different rooms was from seventy-five to eighty-five degrees.

Mr and Mrs. J. M. Griest of 95 East Second avenue Columbus, announce the engagement of their daughter Mary to Mr. Jay J. Caine, son of Mr. and Mrs. S. A. Caine of 226 Elmwood avenue this city.

The members of the Tuesday Afternoon Bridge club had as hostess on the club day Mrs. Wilbur Dennis of Hudson avenue. Several playing tables were filled and a number of guests were present. At the conclusion of the game the prizes were awarded to Mrs. Richard Collins and Mrs. Robert Davidson, while the guest trophy was received by Mrs. W. A. Dorey.

The guests of the club and hostess were Mrs. W. S. Upson, Mrs. W. A. Dorey, Mrs. Daniel Altschul, Mrs. Howard Jones, Mrs. J. S. Herzog, Miss

Gertrude Sook and Miss Nancy Tomlinson of St. Peters, Minn.

The Wednesday Bridge club is being entertained this afternoon by Mrs. George Blood at her Hudson avenue home.

The L. C. B. A. will hold a social meeting at the home of Mrs. Harry Bourner, 405 North Fourth street on Thursday evening. All members are urged to be present.

Mrs. Ross Smith entertained a few friends with a dinner party on Wednesday evening at her North Fifth street home out of compliment to the twenty-second birthday anniversary of Mr. Reginald Montague of London, Eng., who is employed here by the Holophane company. The dinner hour was six o'clock and the table was prettily arranged with the color effect of pink and white, this being arranged with flowers.

Covers were laid for Rev and Mrs. T. A. Cosgrove and Kathleen, and Kingsley Cosgrove, Mr. and Mrs. O. J. Barnes, Prot. Carr, Mrs. J. V. Burner, and Mrs. A. M. Stewart.

A merry crowd of young or people composed of some eighteen or twenty members of the senior class of the Newark High school gave a bob sled ride for some days arrangements have been making for the ride, and at the invitation of Miss Edna Pine, a member of the class, their objective point was the home of Mr. and Mrs. L. H. Pine in Pearl street, Granville. Thursday evening the party left Newark at an early hour and thoroughly

enjoyed the ride to Granville. Upon their arrival in the village they immediately repaired to the home of Mr. and Mrs. Pine, and although their coming was in the nature of a surprise the host and hostess made things comfortable and inviting for the young people. The evening was very pleasantly spent in games of all kinds.

The Investigators club held its regular meeting Monday afternoon at the home of Mrs. Frank T. Hirst, in West Locust street. The following program was given:

THE INDIAN.
As Our Forefathers Found Him — Mrs. Fred O. Tilton.
As He is Today — Mrs. Rose Wilson.
Vocal solos, "The Lost Child," "Make New Friends but Keep the Old Ones" — Mrs. John Danner.
Piano solo, "Valse des Fleurs" — Miss Helen Ruth Hirst.
Critique — Mrs. Otis Morse.
The guests of the club were: Mesdames John Danner, John Sachs, A. S. Mitchell, Dennis Bell, Marie Marshall, Marion Squires and Harry Kirkpatrick, Misses Caroline Slabaugh and Marie Bell.

The Women's Guild of the First Methodist church is planning a novel feature in celebration of Washington's birthday anniversary one week from tomorrow. The feature will be in the nature of a Colonial dinner, given in the parlors of the church at Fifth and Locust streets. The Colonial idea will be followed out in the decorations and service and the ladies serving at the tables will be attired in Colonial costumes. The details of the plan and the menu will be announced later.

At the Wonderland theatre today Evaline Francis, a Newark woman, is being shown in the motion pictures as leading lady in "For Her Father's Sake." This is the first time a Newark woman has appeared in moving pictures in Newark.

Mrs. Edward Miller will be the entertaining hostess of the Ladies Division club on Thursday afternoon at her home in North street.

Among the people who will go to Columbus to see Maude Adams in "Chautauque" at the Hartman theatre on Thursday evening are Miss Anne Wotring and Miss Edith Mackay.

Misses Frances and Marjory Collins are entertaining the members of the Wednesday Afternoon Thimble club this afternoon at their home in Hudson avenue with a Valentine party. A party office has been improvised and a dinner will be served.

The Unity Reading circle was entertained by Mrs. Floyd Clunis in the Delft Tea room of the Avalon on Tuesday afternoon. The following program was given:

Roll call — An Original St Valentine Verse.
King Lear, Acts IV-V — Leader, Mrs. McGough, assisted by Mrs. Bookoven, Mrs. Coulter, Miss Burch, Mrs. Barker, Mrs. Rhoads, Mrs. Bell.

Original Letter — Written by Miss Lisey and read by Mrs. Millisor.
Character Sketch of Cordelia — Mrs. Moore.

Critique — Mrs. Swingle.
The guests were: Mrs. Slabaugh, Mrs. J. S. Rugg, Mrs. Tom Rugg, Miss Brown of Minneapolis.

The next meeting will be on February 22 at the home of Mrs. Cabbie.

The country home of M. B. Claggett, about seven miles southwest of the city, was the scene of merry-making on Monday night when a bob sled load of jolly young people gathered there to spend the evening, with music, games and social conversation. The climax of the occasion was an oyster stew supper.

Those seated at the spacious table were the following: Misses Edna Bright, Lena Wolfe, Emma Armentrout, Viola King, Lulu Swartz, Lucile Brown and Joanna Brown, Messrs Durham Plyler, Ralph Trituppo, John McPherson, Oscar Lampton, Walter Pine, Lockey Koontz, Parker Wolfe and James Armentrout, Mr. and Mrs. M. B. Claggett and children, Howard and Cynthia Grace.

At a late hour the guests started home, declaring Mr. and Mrs. Claggett a royal host and hostess.

One of the enjoyable events of the season was the dinner given at the beautiful country home of Mr. and Mrs. John G. Jones in Sharon Valley on Sunday. At 12 o'clock the following guests were seated to a bountiful chicken dinner: Messrs and Mesdames Charles Crooks, C. L. Smith, Ace Walters, John Philhart, Frank Pierce, Austin Smith, Henry Swartz, Mrs. De-

* RAILWAY AFFAIRS. *

Pennsylvania Heavy Traffic.
On account of the heavy traffic in freight business on the Pennsylvania road, there is a demand for more firemen than are at present in the service on the Ft. Wayne division. All of the extra men are now in service and the road foreman of engines is authority for the statement that some additional men will be taken on.

Signal Car on Pennsylvania.
The Pennsylvania railroad will shortly put out a signal car to go over the entire system, giving instructions to the men regarding the use of signals and the proper handling of them. The car will be stationed at the various points for a few days to properly instruct the men concerned.

Death Roll Reduced.
Encouraged by the reduction in the death roll during 1911, the Pennsylvania will take further steps in 1912. New signs will be placed along the route and further legislation will be asked for providing for keeping trespassers from the right of way.

Enormous Output of Railway Ties.
Statistics prepared by the forestry service of the United States show that of the 125,000,000 cross-ties bought by the railways last year, almost 80 per cent were hewed ties. The sawed ties, while occasionally produced by mills built particularly for this purpose, is more generally a by-product of general lumber operations.

The best board cuts are taken from the side of the logs and the heart is boxed into ties and cut off to standard lengths. Small logs are also cut into ties when the value of the lumber they would make is not more than that of the ties the same stick would produce.

The greatest tie producing section in the United States is that part of the country extending from Virginia to Mississippi and Arkansas south from the Ohio river to the Gulf of Mexico. In addition to sawmills, logging and tie operations in this section.

A Quick Way to Clean Windows

With a dry, soft cloth remove the dust from both outside and inside, cleaning the corners and grooves with the point of a stick covered with a cloth. Have ready a pail of warm suds made by dissolving a tablespoon of Gold Dust washing powder in warm water. Dip a soft cloth in the water, squeeze almost dry and wipe the glass off. Polish with chamois, as it leaves no lint and does the work with more ease. Do not wash windows when the sun is shining on them. Windows should be washed in the same way as windows. Then polish with a soft cloth charged with powdered whiting.

HEART AND HOME TALKS BY BARBARA BOYD

Ten Rules for Married Happiness

THE wife of a famous writer, herself an actress, has given ten rules for married happiness.

According to her, if we walk in the following path, we are sure to arrive at connubial bliss.

- "1. Marriage is a combination of two imperfect personalities. The smart wife considers herself the most imperfect part of the combination.
- "2. The part of the wife is: to look out, to anticipate, to give in, to amuse, to conciliate. In this manner, she will contribute to the mental peace and the material welfare of her husband.
- "3. Don't allow a hired person to be your husband's caterer and possibly the destroyer of his health. Select his food and cook it.
- "4. See to his clothes, his laundry, his socks and handkerchiefs.
- "5. Turn yourself into a marital barometer and anticipate electric storms. Play the lightning rod, so no one gets hurt.
- "6. Be joyful when your husband is joyful, counteract his spells of temper by being agreeable and pleasant.
- "7. When your husband comes home, don't bother him with affairs of the household, or the neighbors, or your own. When the meal has been a success and he is rested, he will stand for anything.
- "8. Your tongue should be the assenter. Dissent only with your eyes.
- "9. If your husband has rheumatism, don't talk about dancing.
- "10. If you want to make your husband believe you are superior to other women, excel as a cook.

Of course, one can't tell whether she is saying this because she thinks she is expressing popular views—though I doubt if even the average woman would today accept her program—or whether she thinks she must talk down to her audience. And also, I grant that a home run on these lines would probably be free from domestic storms.

But what sort of existence would it be for the wife?

And what sort of creature would such a course ultimately make of the husband?

And would it be for a man's highest good for a woman absolutely to efface herself and minister to his every whim? I doubt if thinking men would want to see these ten rules enforced.

That matrimony is a combination of two imperfect personalities is true. But each should recognize his imperfections and try to cure them. For one side to admit that she has all the faults, and the other none, is injustice to herself, and will not work out for the ultimate good of the other. This does not mean that a wife should nag or find fault. But the man should be big enough to see his own deficiencies and to try to overcome them.

A wife should run the home just as perfectly as possible. That's her part of the business. But that doesn't mean she should play valet to her husband. If he is a strong, able-bodied man, there is no reason for her picking up his soiled linen, and hunting up his collar buttons, and as a rule attending to all the minutiae of dressing for him.

There is more to marriage surely than the plane upon which this woman puts it. To prostrate herself so completely and express so little of individuality, to live so materially, surely is to miss the higher, finer joys of married life—for one thing alone, the companionship which is only enjoyable when there are two congenial individualities. The wife who is but an echo of her husband, who smiles when he smiles, assents when he assents, surely does not bring to the partnership that spice and charm of variety, that inspiration when he is downhearted, that need of sympathy when she herself is despondent, that gives zest and purpose to married life.

American women will hardly accept these ten rules of their distinguished visitor from over-seas. Marriage to them means something higher and finer than this. Nor will the thinking American man endorse her views. He is not purely animal. Nor does he want in his wife only a cook and valet.

Barbara Boyd.

tion, says the Railway Age Gazette, there are thousands of farmers producing millions of cross-ties annually. In seasons of the year when agricultural pursuits do not require attention they cut ties and logs, often putting in crews of men for the winter months. These men are paid by piece work, from 10 to 15 cents each for making a tie. An experienced cutter will make from 10 to 15 ties a day and will produce 1000 ties in the four months from November to February.

Police Report of B. & O. Road.

The annual report of the police department of the B. & O. railroad, covering the calendar year 1911, has been prepared by G. A. Ogline, superintendent of police, showing that during the year 11,928 arrests were made, the culprits having been guilty of every manner of offense in the criminal curriculum, from suspicious actions to highway robbery and murder. The most serious offenders were the violators of railroad laws, which class includes trespassers on railway property, vagrants and train riders. During the year 7832 such persons were arrested by B. & O. officers, a small percentage of those who engaged in the practice. Drunkenness and disorder were second with 1709 arrests, while for larceny 1680 arrests were made. Of the persons arrested 85 out of 100 were converted on the charge lodged against them. 51 having been committed to the penitentiary, 3278 to jail, 787 to the workhouse, 126 to reform schools, 14 to asylums and 3042 were fined. Paroles were granted in 1760 cases. In submitting his report Superintendent Ogline called attention to the number of fatalities which occurred during the year to trespassers and other unlawful loiterers around railway property. For the year there were 286 trespassers killed and 353 injured, which, despite the large number, was a decrease compared with the year 1910.

To Oppose Demands.

According to railroad men connected with various roads, the heads of the eastern trunk lines will oppose the demands of the locomotive engineers for a readjustment of the wage schedule. Recently the engineers asked for an increase in wages in the territory east of Chicago and north of the Ohio river. The readjustment of the wage schedule would effect a great many men through here. The committee, consisting of the presidents of seven different lines, has been formed, and W. C. Brown, it is understood, who is president of the New York Central lines, is chairman of the committee. The presidents will meet Feb. 23 to consider the matter. It is said that the sentiment of the managers of the road in general is opposed to any increase. There is no talk of a strike, however on the part of the engineers.

How Dickie Bird Had His Own Christmas Tree

On Christmas Eve Dickie Flew About the Tree

“WHAT do you think of putting something on our Christmas tree for Sheppie and Tabby?” asked Evelyn.

Daddy smiled. “I am sure that your doggie and pussy would consider this a good idea. What would you give them?”

“Well,” replied Evelyn, “Jack thought that a nice bone tied up in tissue paper would please Sheppie. I can’t make up my mind whether Tabby would rather have a heart cut out of floss or a bunch of catnip.”

“I’m sure Sheppie would love the bone and Tabby would be charmed with either the heart or the catnip. That reminds me of two friends of mine who had a pet canary for which one year they dressed a Christmas tree.

“They lived in a boarding house most of the time. There they could have no pet canary bird. Of Dick they were as fond as any two people could be of a dear little bird, and Dick was about the nicest and brightest canary I’ve ever known except, of course, our own Dickie.

“Well, when Christmas time came, this nice lady and gentleman said, after listening to their friends’ Christmas talk, ‘Isn’t it a pity we have no one for whom to have a Christmas tree?’

“Let’s have one for Dickie,” said the bird’s mistress after thinking for a few minutes.

“So they did have one for Dickie. They bought a nice little evergreen tree and strung it with popcorn and lumps of sugar and apples and grapes and nut kernels. Beside these they had tinsel and gilt balls to make the tree look gay.

“Around the bottom of the tree was laid a neat layer of dark green crepe paper to look like moss. The box on which the tree stood was covered with neat packages. A bow of narrow ribbon was tied to each package and that ribbon was run up to one of the branches of the tree, where a knot of the ribbon was attached to a fancy Christmas card bearing a name.

“When Christmas eve came Dickie was allowed to come out of his cage and fly about the room. All of Dickie’s children friends were asked to come in and see his tree.

“There was a nice gift for each one.

“Dickie enjoyed himself immensely, hopping about and picking first at this dainty and then at that.

“When 9 o’clock struck and it was time for the little folks to go home, each went hugging one of the packages which had been under the tree and bearing a Christmas card on which was written ‘Merry Christmas. From Dickie Bird.’”

THE MARCH ST. NICHOLAS.

The March number of St. Nicholas has the first chapter of an enticing new serial, "The Townsend Twins—Camp Directors," by Warren L. Eldred. The first scenes are in New York City and the readers of the Townsend Twins and the readers of their experiences are to be carried up to a summer's good times on Lake Champlain. How all the readers of St. Nicholas will enjoy the March chapters of the other serials: "The Lucky Sixpence," Crofton Golden, "The Knights of the Golden Spur," and "The Lady of the Lane!"

A specially interesting letter in the March St. Nicholas—Nichelet-Box is from a little girl who writes from Tule Lake, Ore., who goes to school in Modoc county, Calif., a school which "takes St. Nicholas." "We all enjoy it very much," she writes. "There are only seven of us in school, and we all have a chance to take it home and read it. We also use it for school work in nature study and composition, and our teacher reads the continued stories out loud to us."

The St. Nicholas League awards gold and silver badges each month to the best original poems, stories, drawings, photographs, puzzles, and puzzle answers. Also, occasionally, cash prizes of five dollars each to gold-badge winners who shall, from time to time, attain first place.

Any reader of St. Nicholas, whether a subscriber or not, is entitled to League membership, and a League badge and leaflet, which will be sent free.

TYPHOID FEVER SITUATION IS MUCH BETTER

There is every indication that the typhoid fever situation is improving each day. There has been but one case reported in the last five days, from Feb. 10 to 14 inclusive. Since the second of February, four cases have been reported, one on the 4th, one on the 6th, one on the 9th and one on the 10th. From January 13 to February 2, a mild epidemic condition existed but since that time the cases which developed might not have been concerned with the epidemic.

TASTE, SMELL AND HEARING RESTORED

A Simple, Harmless Remedy Quickly
Relieves Catarrhal Deafness.

The thousands who suffer the miseries of colds and catarrh and claim they have never found a cure can get instant relief by simply anointing the nostrils with Ely's Cream Balm.

Unlike internal medicines which upset the stomach or strong snuffs which only aggravates the trouble, this cleansing, healing, antiseptic Balm instantly reaches the seat of the trouble, stops the mucus discharge, clears the nose, head and throat, and brings back the sense of taste, smell and improves hearing. More than this, it strengthens the weakened and diseased tissues, thus protecting you against a return of the trouble. This remedy will cure a cold in a day, and prevent its becoming chronic or resulting in catarrh.

Nasal catarrh is an inflammation of the membrane lining the air passages, and cannot be reached by mixtures taken into the stomach, nor can it be cured by snuffs and powders which only cause additional irritation. Don't waste time on them. Get a 50 cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner.

Mothers should give the children Ely's Cream Balm for colds and croup. It is perfectly harmless, and pleasant to take.

COLUMBUS BOXERS BUSY WITH BOUTS

The sporting editor of the Advocate has received a letter from D. W. Jones of Columbus, announcing that Jack Dillon of Indianapolis has been matched against Kid Clark of Columbus. Dillon is said to be the recognized welterweight champion of the world. An effort is being made to match Mike Kelly of Columbus and Peterson of Newark, but the latter has not replied to the Columbus sports' communication. Jones states that if this bout is well patronized, he will make an effort to show Packey McFarland and Billy Papke and other well known boxers.

WANT TO FEEL YOUNG?

It's Olive Tablets
For You!

Beware of the habit of constipation, it develops from just a few constipated days, especially in Old People, unless you take yourself in hand. Coax the jaded bowel muscles back to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. Don't force them to unnatural action with severe medicines or by merely flushing out the intestines with nasty, sickening cathartics.

Dr. Edwards' Olive Tablets are gentle, yet positive. There is never any pain or gripping where Olive Tablets are used. Just the kind of treatment old persons should have. Try Olive Tablets mixed with olive oil and have no trouble with your bowels or stomach. "Every little Olive Tablet has a movement all its own." 10c, and 25c per box. The Olive Tablet Company of Columbus, Ohio. Dr. F. M. Edwards, President.

REFEREE BLACK MAKES DECISION IN TWO CASES

Two hearings in bankruptcy matters were heard before the referee in bankruptcy, Frederic M. Black, at his office in the Trust Building this morning. The hearings were in the cases of Albert Schweizer and Carey A. Burke, respectively. In the Burke case the court ordered the sale of certain assets of the estate, and in the Schweizer case the payment of certain preferred claims to lien holders. Both of these cases are nearly closed and final account will probably be filed in each case by the trustee within a short time.

VAPOR TREATMENT

For Catarrh, Colds, Coughs,
Sore Throat and Bronchitis.

Everybody knows that breathing HYOMEL a few times a day through the little hard rubber pocket inhaler will in a short time drive out catarrh. Many people regularly use the vapor treatment at night in conjunction with the inhaler, claiming that it hastens results.

This is the vapor treatment: Into a bowl three quarters full of boiling water pour a scant teaspoonful of HYOMEL, cover head and bowl with towel and breathe for five minutes the soothing, healing, antiseptic HYOMEL vapor. Try it when using HYOMEL for any nose or throat ailment.

HYOMEL is guaranteed by Evans Drug Store to put an end to catarrh or money back. A bottle of HYOMEL costs 50 cents; a complete outfit, which includes inhaler, \$1.00.

EXCELLENT SERMON BY DR. SPENCER

The revival last night at the Central Church of Christ was largely attended and great interest was shown in the striking message of Evangelist Spencer. The crowd assembled early and the excellent chorus choir conducted a praise service, in which the congregation joined. The sermon by Dr. Spencer was on the "question," "What Must I Do To Be Saved?" He first asked, "What must a man do to be lost?" He answered that no one needs to do anything to be lost. Every one has sinned and stands condemned and lost. Jesus is the only Savior and is a sufficient Savior for all. Whoever loves not God lives not in him. There can be no spiritual life without love. The trouble with the church is that its love is running low when it should be a mighty tide. If any man love Christ he will keep his commandments. It is to increase and develop love for the friend of sinners that these meetings are being held. Love is spiritual life and there is no life without it.

"What shall a Christian do to be saved?" asked Mr. Spencer. "Abide in the love of Christ, as the branch in the vine," was the answer. In telling what an alien sinner must do to be saved, to be brought into union with the Lord, the evangelist quoted from the Acts of the Apostles concerning the conversion of the Philippian apostle, the Apostle Paul and the 3000 at Pentecost. "These three examples," he said, "answer the question from three different standpoints; but all three cases are in perfect accord one with another, and with the great commission of our Lord." There were more responses last night to the gospel invitation, and a greater meeting is expected tonight, when the subject will be "Jesus Leading Men to Repentance."

THE MERRIMAC AND MONITOR.

And now the great fight was on, a fight the like of which the world had never seen. With the battle of yesterday, old methods had passed away, and with them the experience of a thousand years "of battle and of breeze" was brought to naught. The books of all navies were burned with the Congress by a conflagration as ruthless as the torch of Omar. A new leaf had been turned, a virgin page on which to transcribe and record the art of naval warfare.

We hovered about each other in spirals, gradually contracting the circuits until we were within point-blank range, but our shell glanced from the Monitor's turrets just as hers did from our sloping sides. For two hours the cannonade continued without perceptible damage to either of the combatants.

On our gun-deck all was bustle, smoke, grimy figures and stern commands, while down in the engine and boiler rooms the 16 furnaces were belching out fire and smoke, and the firemen standing in front of them, like so many gladiators, tugged away with devil's claw and slice-bar, inducing by their exertions more and more intense heat and combustion. The noise of the crackling, roaring, hissing, escaping steam, and the loud and labored pulsations of the engines, together with the roar of battle above and the thud and vibration of the huge masses of iron being hurled against us, altogether produced a scene and sound to be compared only with the poet's picture of the lower regions — H. Ashton Ramsay, in Harper's Weekly.

LOST SLEEP TEN YEARS

Any one who knows Mr. B. F. Sugg, of Turner, N. C., will tell you that he speaks nothing but the truth. Mr. Sugg has suffered greatly from sleeplessness and in a recent letter says: "For ten years I have suffered greatly from a nervous ailment which caused me to lose at least three hours of needed sleep every night."

"I tried everything. I could find to get relief, and finally one bottle of Vinol gave me more relief than all other remedies. I am grateful to Vinol for my present good health."

Many persons who are in a nervous, run-down condition get so they cannot sleep, and this is almost certain to wreck their health unless the right steps are taken.

Our delicious cod liver and iron remedy without oil, Vinol, builds up the body and nourishes the nerves with pure, rich blood, and makes it possible to get natural, restful sleep. We guarantee that Vinol will do you good (money back if it fails), and if you are weak, nervous and sleepless, you certainly should try Vinol. F. D. Hall, druggist, Newark, O., and other druggists.

Columbus Man Opens Studio In Newark Trust Bldg.

The music loving set of the city will receive with pleasure the news that Mr. Shields Dierkes of the Columbus School of Opera, has opened a studio in the Trust Building. Mr. Dierkes is a musician of more than local reputation, having sung the baritone roles with the Andreas Southern Opera Company for a period of five years. He is not only a soloist, but also an accomplished organist, and several in that capacity in the St. Louis cathedral.

Mr. Dierkes has been especially fortunate in the matter of study of his art, as he was a pupil of Perano of Milan, Italy.

Mr. Dierkes will devote the major portion of his time to the work of his Newark studio, and in this connection will train and coach the casts of light, lyric and grand opera. In coming to Newark Mr. Dierkes has not given up his school in Columbus, but has left it under the direction of two teachers who will carry on the work.
